ADVISORY TEAM

Rode & Associates was established to service clients for all their valuation and related requirements offering an all-inclusive service in this key financial services sector. This covers both Fixed and Movable Assets for both market and insurance purposes. Our team of highly skilled professionals have undertaken numerous valuations and offered key advisory services in linked and related services to private, listed and Government organizations. The company prides itself in offering service excellence backed by an excellent reputation, confidentiality and sound business principals. "Assets are better protected when qualified and independent Valuers are retained to provide value including experts in the other key related services offered".

Following the huge impact the COVID-19 pandemic has had on the world and will continue to do so for decades going forward Rode & Associates has mapped out an innovative way how valuations and other linked services can be carried out complying with international regulations but offering a much quicker and cost effective service. Contact us to find out how.
